## **Task Order Statement of Work**

**Task Order Title:** Support for Review of Corrosivity Regulatory Petition

**Background:** The Agency recently received a rulemaking petition to revise the Resource Conservation and Recovery Act (RCRA) corrosivity characteristic regulation. Among the issues raised in the petition were concerns about the technical basis for the original 1980 promulgation of this regulation.

**Purpose and Objectives:** This task order will produce a set of files that contain the full rulemaking record and any related materials for promulgation of the 1980 corrosivity characteristic regulation.

**Scope of Work:** The contractor shall identify, collect, organize and provide to the EPA all documents comprising the May 19, 1980 corrosivity regulation rulemaking record, and any related materials that may be available.

**Task 1: Task Order Management and Administration:** Implementing and /or assisting with aspects of administrative management e.g., work plan development. Communicating and, coordinating between contractor and government.

**Task 2: Data Collection:** The contractor shall visit or otherwise obtain access to the public rulemaking docket supporting the 1980 corrosivity characteristic regulation. The contractor shall then identify and obtain copies of aU docket materials supporting the corrosivity characteristic regulation development. This effort includes all draft and final materials related to the Advance Notice of Proposed Rulemaking (ANPRM), and the proposed and final corrosivity regulation. All draft and final versions of all Federal Register notices related to development of the corrosivity characteristic, technical background documents, public comments and comment response documents that exist in the public docket are relevant. All materials related to development and implementation of SW-846 Method 9040C, including all predecessor versions of the method, and any other related materials (e.g., sampling or implementation/compliance guidance) shall also be collected.

Large portions of the RCRA base regulatory program were also promulgated on May 19, 1980. Materials supporting other parts of the RCRA regulatory program that directly relate to the corrosivity characteristic regulatory values and scope shall also be identified and collected.

The contractor shall also identify and obtain any documents related to any revisions to the corrosivity characteristic regulation subsequent to the May 19, 1980 promulgation.

Documents shall be collected as either hard copy or electronic (PDF) documents.

**Task 3: Data Review and Draft Report Development:** The contractor shall compile and organize the collected materials by topic, and within topics, chronologically and highlight

information relevant to certain provisions included in a rulemaking petition to revise the corrosivity characteristic regulation. Topics shall include: pre-proposal materials; proposal supporting analyses and background materials; proposal Federal Register; public comments; final rule background supporting materials; response to public comments (if this document is separate); final rule Federal Register; Method 9040; corrosivity characteristic revisions.

The contractor shall also produce a descriptive table-of-contents identifying the documents contained in the files and their location within the file. The contractor shall produce both hard-copy and electronic versions of all files and the table of contents and provide them to the TOCOR as draft deliverables for comment.

**Task 4: Final Report:** The contractor shall produce and deliver a final version of the organized materials and table-of-contents which has been revised to reflect TOCOR comments on the draft report.

**Task 5: Schedule of Deliverables:**

Deliverable	Date
Task 2: Data Identification and collection	8 weeks after Task Order begins
Task 3: Draft Report	12 weeks after Task Order begins
Task 4: Final Report	4 weeks after TOCOR comments on Draft Report received by contractor
